## Power Products

From low cost wall adapters, to highly efficient open frame switching power supplies, from standard supply to custom solutions, Baknor is your best source of power.

### Power Supplies

- Linear (Direct Plug-in/Desktop)
- Switching (Direct Plug-in/Desktop)
- Open Frame Switching
- Power Transformer
- High Frequency (EMI Filters, Switching & SMD Transformer, Toroids)

### AC-DC Converters

We offer standard AC DC power supplies in the 5 to 200 watt range, and develop custom power supplies to customer specific requirements up to 500 watts.

### Standard/Custom/Semi-Custom Power Supplies

Switch mode or linear power supply design from concept to manufacturing prototypes, to volume production.

### Available Features

- Power Factor Correction
  - Automatic AC line voltage selection or full-range operation
  - Fast and efficient magnetic amplifiers
  - Current mode control
  - High frequency resonant conversion
  - Hot plug and redundant current sharing systems
- Specialized monitoring/control interfaces

### Regulated, Isolated, Universal Input

#### Computing, Office Automation, Communications

We produce the best quality and highest performance Switching Power Supply and adaptor for various applications. Including OA equipment, notebook computer, LCD monitor, industry equipment, consumer product, telecommunication, multimedia, battery charger, as well as customer design products.

AC DC and DC DC switch mode converters for communication, automation, industrial control and aerospace markets worldwide.

### Industrial & Automotive

- Control Systems
- Rectifiers/Chargers
- Automotive Electronics

### Computer Peripherals & Data Storage

- RAID Systems
- High Performance Printers
- Fiber Channel Systems

### Telecom and Networking

- Enterprise Systems
- Routers
- Switches
- Hubs
- Access Concentrators

### Optical Networks

- Internet Backbone
- Metro Networks
- Local Networks
- Long Haul Systems

### Test & Measurement

- Precision Measurement
- Card Cage Systems

## Baknor brings the Far East to you.

Baknor is a leading provider of custom electronic components. Through experienced offshore management we bring the advantages of the Far East right to your front door.
